

Ideas to help you get nattering!

Come up with your own interpretation of a Big Number Natter or use these ideas to get started

QUICK POST IDEAS Ask your teams to post their answers...

- How does maths make you feel in one word?
- How did you feel about maths at school in one word?
- Give an example of when you use numeracy: for instance at work, at home, with your children, when shopping, when managing your money?

VIDEO IDEAS Post a video clip talking about...

- How you feel about maths?
- How you feel about helping children with maths homework?
- What helped you start feeling more confident with numbers?
- How you use numeracy at home or at work?

TIK TOK Have a go at Katya Jones' dance challenge or post your number natter on Tik Tok

Look out for fun activities, number natters and top tips from our celebrity ambassadors to help boost your number confidence and skills.

FUN FOR THE FAMILY Help kids feel positive about numbers

Our National Numeracy Day children's hub is jam-packed with free, fun activities from our celebrity ambassadors, search 'numeracy day' or visit nationalnumeracy.org.uk/numeracyday.

Help us get kids feeling confident and positive about numbers by sharing some kids content:

- Get your kids dancing with Katya Jones, baking with Peter Sawkins and rapping with Harry Baker. Show our Ambassadors how they got on by tagging us and them.
- Is your child's school celebrating National Numeracy Day? Show us their number fun activity.
- Kids social media take over - let your kids take over your social media accounts at school or home this National Numeracy Day.
- Have a Big Number Natter with your kids and find out how they feel. Share the conversation.
- Number Heroes Competition - a chance for children to win a prize for themselves and a huge prize bundle for their school. Share your kid's entries with us on social media before submitting them on our website.
