Look at
me!

Who's made these shapes in
Three's Stampoline Park?
The blocks can make many
different shapes. Can you draw
another shape for each set?

Calling all Number Explorers!

- Use blocks to explore how many different shapes 5 can make.
- Dip your shapes in paint and make your own stampoline patterns for 5.

Notes for grown-ups

MATHEMATICS

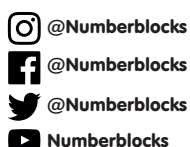

Subitising numbers to 5

ACTIVITIES

- Recognise which Numberblock made each set of block shapes.
- Make block shapes from interlocking cubes.
- Use paint to 'stamp' out the patterns.

ACTIVITY SOLUTIONS AND EXPECTATIONS

Children should subitise (recognise the quantity without counting) each number and draw at least one more example, where the blocks are organised in a different shape or orientation.
