Clear Space

The logo exclusion zone is in place to ensure the clarity of our logo. The minimum clear space uses the cap height of 'N' in 'National' and 'Numeracy' within the logo. Please note that this is a minimum clear space - always allow as much room as possible to ensure our logo stands out.

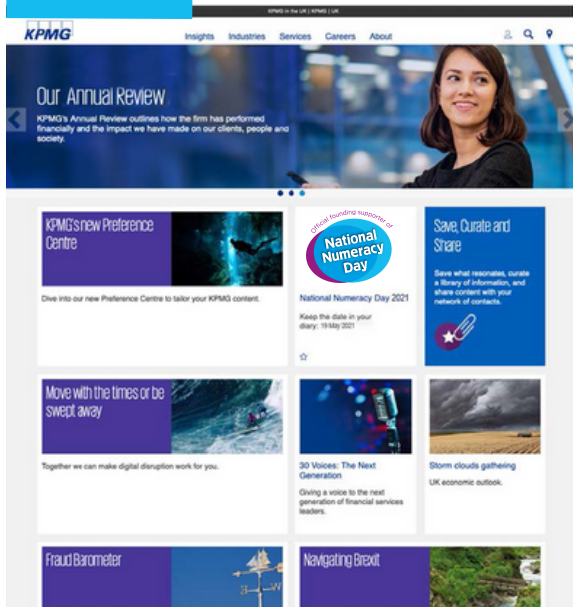

Minimum Size

Date logo: This version should not be used any smaller than 50mm in width. This is so that the date remains legible. If space doesn't allow, please use the secondary logo instead.

Primary logo: This version should be used when space requires a size less than 50mm but should not be used any smaller than 30mm in width.

50mm   30mm
