

Number Confidence BINGO

Ready to play? Eyes down! Let's see how many you can tick off!

Think about the last week and find the things you've done on your bingo card. From bagging a bargain to working out timings, you may have used more maths than you realise. How many squares can you tick? Can you get a full house?

Worked out a discount	Compared two prices	Read a timetable
Used a measurement	Worked out how long something would take	Helped someone with numbers
Used a calculator	Made a budget	Successfully followed a recipe

Bingo! You're using maths more than you think!

Everyday life is full of maths — and you're already using it without even noticing. Keep your eyes peeled for your next maths moment and see how many more you can spot!
