

Parental Engagement Audit Tool

Identifying & Encouraging Healthy Partnerships

Your name	
Your school	
Do you have a coherent approach to parental engagement across your school?	
Are families supported at transition points, for example when their child starts school?	
Are families involved in deciding what the issues are? Do families get to highlight what is important to them?	
Is parental engagement accessible to all families?	
Is information available in other languages?	

Do families know how to access support they may need, such as translators?	
What arrangements are there to include families who live further away from the school?	
Do families know how they can contact school other than by phone or through meetings? Do you offer other means of contact, such as text, email, or a comments box at the school?	
How are family members who are less engaged or lack confidence being encouraged to take part?	
How will people know if their ideas and views have been taken into account?
